Overview

When blood samples/components/products are transferred from one hospital to another, it is of utmost importance that the location in transit may be traceable at any given time. Most often the packages being transferred are time or temperature sensitive items that must arrive within a certain time frame. If a package does not arrive according to schedule, there shall be a process to locate the package before contents are unusable.

Policy

1. All Regional Health Authorities shall develop and implement policies, processes and procedures that comply with Provincial Blood Coordinating Program policy for notification and follow-up when sending packages from facility to facility.

2. The shipping hospital shall receive confirmation from the receiving hospital that the package will be accepted.

3. The shipping hospital shall provide the receiving hospital with:
   3.1. Contents of incoming package;
   3.2. Complete route of transportation for package; and
   3.3. Estimated time of delivery.

4. The receiving hospital shall:
   4.1. Confirm that the package will be accepted;
   4.2. Communicate to staff the shipping details regarding the incoming package;
   4.3. Send confirmation to shipping hospital when package is received.

5. Packages shall only be shipped to arrive during daytime work hours Monday to Friday. In the event a package with special storage conditions must be shipped outside this time, manager or designate approval must be obtained.

6. The receiving facility shall be responsible for final disposition documentation.

Procedure

Shipping Hospital

1. Call the receiving hospital to provide notification of incoming package.

2. Provide information to receiving hospital:
   2.1. Contents of the package;
2.2. Expected delivery time of the package;
2.3. Mode of transportation of the package; and
2.4. Tracking number, if available.

3. Document the name of hospital personnel notified about the package information.

Receiving Hospital
1. Confirm acceptance of the package.
2. Place the shipping documentation of all incoming packages in a designated area and inform all staff involved of the expected time of arrival.
3. In the event a package is expected to arrive on an off shift, outgoing staff must communicate to incoming staff, the expected time of arrival.
4. Upon receiving package, call or send a fax to shipping hospital to confirm package has arrived.

Key Words

Package, shipping, time, temperature, notification
