

Wait time Data - Child Developmental Services

September 2015

Service	Eastern Health	Central Health	Western Health	Labrador – Grenfell Health
Speech Language Pathology	14-18 months *	12 months	10.5 months	3 months
Occupational Therapy	16 months	6- 10 months**	7 months	4 months
Developmental Assessment***	6 months	5 months	8 months***	8 months
Children Diagnosed- Autism Spectrum Disorder (Sept. 2014 – Aug. 2015)	129	25	33	<5

* Eastern Health has separate wait times dependent on which part of the region you reside - Eastern Rural includes Rural Avalon and the Clarenville and Burin Peninsulas and Eastern Urban includes St. John’s and surrounding areas.

** Central Health has separate wait times dependent on which part of the region you reside – Gander and surrounding area 6 months and Grand Falls Windsor 10 months

***A developmental assessment is inclusive of assessment for any concerns with delays in a child’s development. In Western Health the number reflects wait time for an Autism Spectrum Disorder assessment only.

The wait times listed are the **average** wait time that can be expected for your region. Wait times listed may fluctuate depending on staff availability (vacancies, leave, recruitment etc.), increase in priority cases, and geographical locations which may require extensive travel time.
