

Week 50, December 9 – December 15, 2018

Department of Health and Community Services
Government of Newfoundland and Labrador

Respiratory Weekly

Highlights

- ⇒ In week 50, there were 11 laboratory-confirmed cases of influenza reported (Table 1).
- ⇒ As of December 15, 2018, there have been 33 (32A, 1B) laboratory-confirmed cases, seven hospitalizations, and two ICU admissions.
- ⇒ Influenza activity across Canada continues to increase. Influenza A (H1N1)pdm09 is the most common subtype detected to date.
- ⇒ Cases have been reported in all regional health authorities (Figure 2).
- ⇒ Approximately 70% of cases reported to date (23 of 33) were less than 45 years of age (Figure 3).
- ⇒ No confirmed influenza outbreaks have been reported so far this season (Figure 4).
- ⇒ Emergency room visits with influenza-like illness (ILI) and symptomatic respiratory HealthLine calls have decreased from last week (Figures 5 and 6).
- ⇒ Other respiratory viruses circulating in week 50 include RSV, PIV, entero/rhinovirus and hMPV (Table 3).
- ⇒ **Did you get it? Influenza vaccination remains one of the best methods to protect you and your children and prevent the spread of the virus!**

Laboratory-Confirmed Cases

Table 1: Number of positive influenza cases in NL, by severity, week 50, 2018-2019 season

	Cases	Hospitalizations	ICU Admissions	Deaths
Week	11	1	0	0
Total	33	7	2	0

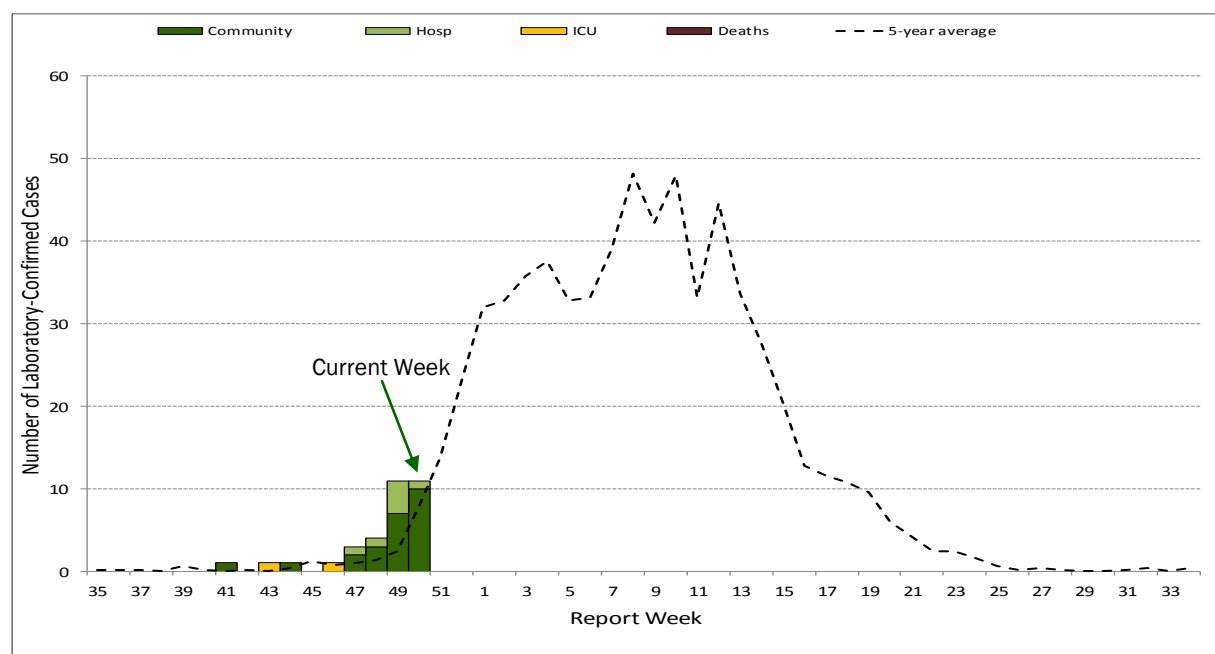

Figure 1: Number of cases, hospitalizations, ICU admissions and deaths, by week virus identified, 2018-2019

Influenza by type, RHA

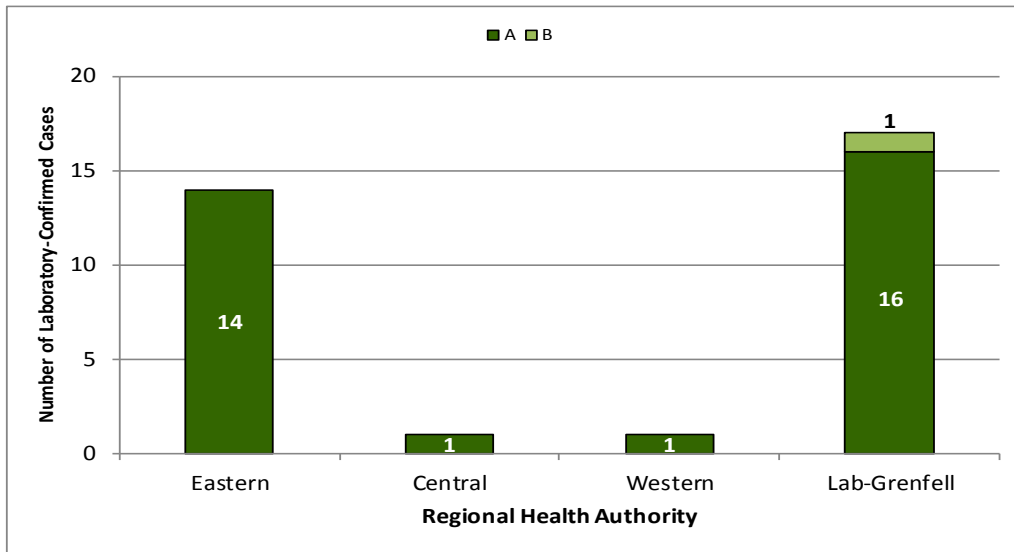

Figure 2: Total number of laboratory-confirmed influenza A and B, by Regional Health Authority, 2018-2019

Influenza by age group (n=33)

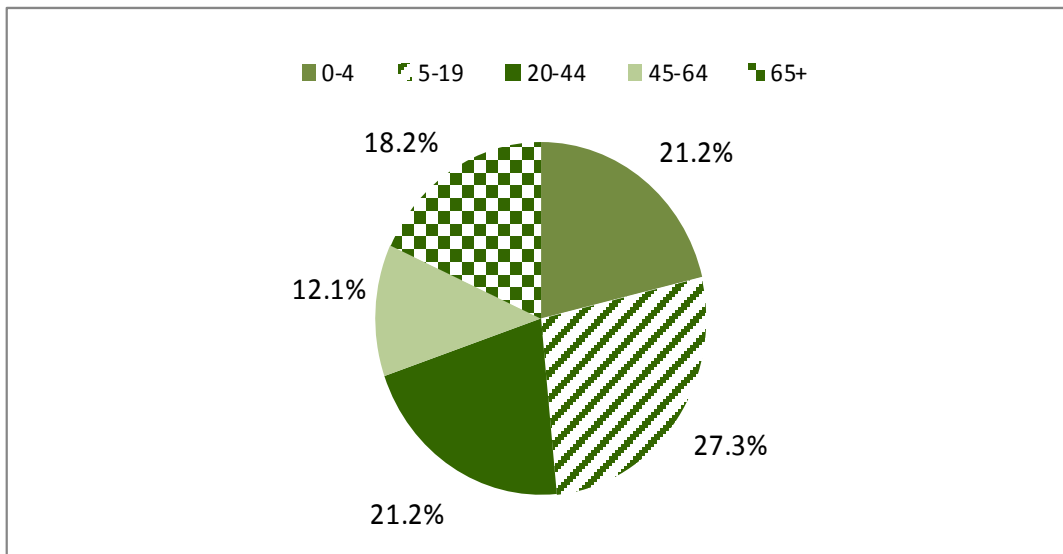

Figure 3: Percent of laboratory-confirmed influenza in NL, by age group, 2018-2019

Antiviral Resistance

Table 2: Cumulative antiviral resistance by influenza virus type and sub-type, Canada, 2018-2019

	Oseltamivir			Zanamivir			Amantadine		
	Tested	Resistant		Tested	Resistant		Tested	Resistant	
	#	#	%	#	#	%	#	#	%
A (H3N2)	28	0	0	28	0	0	26	26	100
A (H1N1)	220	0	0	220	0	0	195	195	100
B	14	0	0	13	0	0	--	--	--
Total	262	0	0	261	0	0	221	221	100

Other Respiratory Viruses

Table 3: Weekly and total number of positive respiratory virus specimens in NL, by type, 2018-2019 season

	Week 50	Total
R.S.V.	14	36
Parainfluenza virus 1	0	0
Parainfluenza virus 2	3	8
Parainfluenza virus 3	0	25
Adenovirus	0	10
Entero/Rhinovirus	22	156
hMPV	1	1
